Cruise Control

Today's drivers experience more and more distractions on the road. The MissionSafe app analyzes certain driving behaviors; over time learning your driving habits, scoring you based on the following factors:

- Phone Distraction: Using the phone in your hand while the vehicle is in motion
- Hard Braking: A sudden reduction in speed
- Speeding: Driving over a safe speed for a given road
- Hard Acceleration: A sudden increase in speed
- Cornering: Turning or swerving harshly

The more aware of your driving, the safer you can become, the better your score.

Your privacy is our concern!

The data that is collected through MissionSafe is only used to determine driving score. You can rest assured that your personal information is never shared or sold. That's our Westfield Privacy Promise to you!
