

MARCH – The New AWP is LIVE!

Redesigned With You in Mind

The time is here to check out the newly designed AWP!

From now through September, when you log into AWP you will see the option to use the new AWP or continue with the current version.

The screenshot shows the Westfield website header with navigation links: Insurance, Careers, Claims, Resources, About Us, Billing, 800.243.0210, and a LOGIN button. Below the header is a large banner with the heading "Try the New Agent's Web Passport Experience". The text below the heading reads: "A new Agent's Web Passport is here! While the legacy Agent's Web Passport will continue to be in service into 2024, we encourage you to try the new version today. Not ready to commit? No problem, you can switch back to the legacy version at any time." Below this text are two side-by-side panels. The left panel, titled "Use the NEW Agent's Web Passport", features a list of benefits: "Easy access to all important tools", "Set important preferences", and "Updated information and interface". It includes a "USE THE NEW SYSTEM" button. The right panel, titled "Use LEGACY Agent's Web Passport", includes a "USE THE LEGACY SYSTEM" button. Both panels show a preview of the respective web interface.

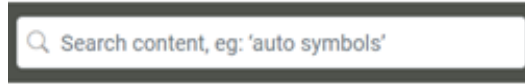

The new AWP has so many new features and benefits we feel confident you will love the experience. So, we encourage you to check it out, play with it and give us your feedback. While access to the new AWP is available now, emails will be sent out on a rolling basis monthly letting you know when it is time to make the transition.

Continues on next page.

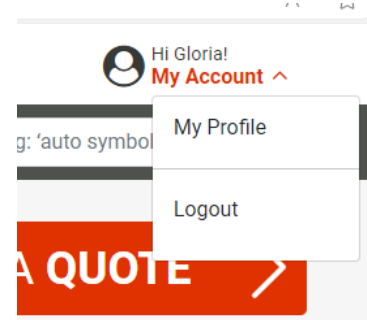

What's New?

Below are some key features of the new system. So have fun and experience the new AWP.

A **powerful search feature** is now available. Finding information has never been easier.

Personalized content based on your user credentials means that accessing policy and claims information is much more efficient.

Simplified design and organization let you quickly gather facts to help serve your customers.

We're always here to help! In fact, we've included a **HELP & FEEDBACK CENTER** button on each page so it's more convenient for you to ask questions and offer feedback in the context of what you're working on. Be sure to use the **HELP & FEEDBACK CENTER** button to tell us what you're thinking.

[Take a tour](#) with the new AWP sitemap and experience Westfield in a new way!
