

Claims Download

Get customer data delivered directly to your agency management system.

KEY BENEFITS OF CLAIMS DOWNLOAD

Speeds up the claims process. Know immediately when your customers file a claim, enabling quicker, more effective service.

Supports a paperless workflow. Receive claims information directly in your agency management system.

Keeps you informed. Access critical, consistent, and accurate claims information in real-time.

Eliminates the need to re-key data. Streamline the process and reduce errors with automatic imports of details like loss date, incident description, and contact information.

Claims Download is compatible with more than 70 agency management systems.

If yours isn't listed in the top ten below and you'd like to confirm compatibility, please contact the Agency Help Desk.
