

Get the Download

A quick, easy way to access Westfield claims information

KEY BENEFITS OF CLAIMS DOWNLOAD

It speeds up the claims process. You know when your customers file a claim immediately so you can provide quicker, more effective customer service.

It supports a paperless workflow. You get information electronically delivered directly to your agency management system.

It keeps you informed. You have immediate access to critical, consistent and accurate information.

It eliminates the need to re-key data. You have a more efficient claims process and less opportunity for error because Claims Download imports the information you need – such as loss date, incident description, contact information, payment information and more.

Claims Download is compatible with the following agency management systems:

PROVIDER	SYSTEM/VERSION
Agency Software	Agency Pro
Applied	TAM 9.3, Vision 7.0 or EPIC 4.0
Canary	CanaryAMS
HawkSoft	CMS 3.14 and above
